

differences. For example, Claim 2 sets forth a "methodology" listing not found in either of Claims 1 and 26; and Claim 14 sets forth a listing of "energetic materials" not found in Claims 1 and 26. Thus, this ground of rejection is clearly improper and should be withdrawn.

Conclusion

In view of the amendments to the claims and the foregoing comments, it is submitted that each ground of rejection has been overcome or is improper and should be withdrawn. New Claims 27-45 have been added to provide Applicants with a varying scope of coverage, and patentably distinguish from original Claims 2-14. Thus, it is submitted that this application is in condition for allowance based on Claims 1 and 26-45.

Respectfully submitted,
